

"Leading the World in Affordable, Effective Portable Foam Systems"

4089F

Quarter Turn Quick Connect

Scotty Firefighter is proud to introduce the 4089F, our new Quarter Turn Quick Connect with Female threads. Made from the same high quality, glass-filled nylon as other Scotty Firefighter products, the 4089 QTQC can withstand the rigors and demands of the firefighting environment. Being made from Ny-Glass, the 4089s are durable, light weight and will never corrode or seize together.

A single 4089F weighs just 55 grams (2 ounces) each. A standard Aluminum QTQC weighs 75 grams (2.8 ounces). The Scotty QTQC design incorporates anvil type lugs to accept help facilitate the grip of any spanner wrenches used to tighten or loosen the QTQCs. The Scotty 4577 Spanner Wrench (see image below) is perfectly suited for use with Scotty 4089 Quarter Turn Quick Connects.

Specifications and Features:

Material: Glass-reinforced engineering grade nylon (Ny-Glass)

Threads: QTQC x 1.5" Female NPSH

Weight: 55g (2 ounces)

Colour: Black or Florescent Yellow (The 4089 can be molded in virtually any color, minimum quantities apply).

Working Pressures: The 4089 is recommended for use with pressures up to 450psi

Includes both gasket seals.

4577 Spanner Wrench
